WANTS COMMISSION TO FIX PRICES

Attorney General George W. Wickersham seems to have taken the wind out of the sails of the radicals by his recent speech in Duluth. He suggested the advisability of having a national commission to regulate the prices of all articles, a plan that few if any of our most advanced statesmen have gone so far as to recommend.

Woman's Danger Periods Made Safe

By Lydia E. Pinkham's Vegetable Compound

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Here is proof:

Natick, Mass.—"I cannot express what I went through during the Change of Life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations and could not sleep nights. I was finally told by two physicians that I had a tumor. 'I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish this letter.'—Mrs. Nathan B. Gorton, 51 No. Main St., Natick, Mass.

ANOTHER SIMILAR CASE.

Cornwallville, N. Y.—"I have been taking Lydia E. Pinkham's Vegetable Compound for some time for Change of Life, nervousness, and a fibroid growth.

"Two doctors advised me to go to the hospital, but one day while I was away visiting, I met a woman who told me to take Lydia E. Pinkham's Vegetable Compound. I did so and I know it helped me wonderfully. I am very thankful that I was told to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Wm. Boughton, Cornwallville, N. Y., Greene Co.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

HERE AND THERE

The "White Slavery" case which was brought to light by the Cairo police some time ago in which Mable Stevens, of Thirteenth street, was the alleged trafficker, is being investigated by the federal grand jury at Danville. Robbie Malpass, the young girl, of Union City, who was taken by the Stevens woman from her home to Cairo and placed on Thirteenth street, did not appear when summoned. It is said that not any of the girl's relatives have as yet appeared in the case. The girl and her relatives have moved from Union City to Rockhill, S. C. It is not known whether the Stevens woman is in town or not. She was given a hearing here and placed under bond in the sum of \$1,000.—Cairo Citizen.

"Billy Sunday, the baseball evangelist, is said to have cleaned up \$70,000 last year saving souls," say the St. Joseph Observer. The church people love to be humbugged as well as others. The good pastor will labor faithfully in his vineyard for years to get the harvest ready, half-starving while he labors, and some jaunty evangelist will come along, arouse the people and hold up the people and the pastor like pickpockets, and they will pay him richly for the abuse. There is a sucker born every minute.

Charles Edmond Doran, aged 22 years, a young man of near Lynnvill, was adjudged of unsound mind Wednesday in county court and ordered confined in the state institute at Hopkinsville. He has been an excessive cigarette smoker and to this and the use of intoxicants is attributed the ruin of his mental faculties.—Mayfield Messenger.

Yellow complexion pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. HERBINE is a powerful liver correctant. The Fuel Supply Needs Attention Only Three Times Each Day

The makers of Cole's Hot Blast Heater guarantee this stove to hold fire with soft coal 36 hours without attention. Your old stove and imitation stoves leak air and waste fuel because they are not air-tight, because they have putty joints.

Cole's Original Hot Blast Heater

—by means of the patented Hot Blast Draft and other patented features which make it tight, doing away with the use of stove putty—requires less attention than any other heater made.

All fuel—Soft Coal, Hard Coal, Lignite, Wood or Corn Cobs—contains a large amount of gas. Fully one-half of the heating power (carbon) in soft coal is gas. This is the part of the fuel this wonderful heater saves, by burning it with the Top Hot Blast Draft. This makes Cole's Hot Blast Heater the most satisfactory, the most economical, the most convenient heater you can buy. Imitations and other styles of stoves allow this gas-half of the coal to pass up the chimney with the smoke, unburned.

Thousands of these stoves are in use and the sale continues to increase year after year.

This heater will give you more comfort than you ever thought possible by using any kind of a stove which uses soft coal for fuel.

Right now is the time to decide and select the size you should have. Come in and see complete line of styles and sizes.

A DRESSY SHIRT WAIST.

Adding a touch of fancy to a plain shirt waist we have a very pretty model, shown in the accompanying illustration. The waist is built on the well liked Gibson lines, with the deep tuck extending out over the shoulder, short in front and full length in the back. The closing of the waist is in the back. In front there is a small pointed yoke at the neck, edged on each side by small revers. Below this there is a panel, formed by two outward turning tucks. The sleeves have a small cap at the top and a deep cuff at the wrist with a puffed section between them. This waist may be developed in any soft silk, such as mesaline or pongee and equally well in gingham, madras, challis, etc.

The pattern (4678) is cut in sizes 32 to 42 inches bust measure. Medium size requires 3 3/4 yards of 37 inch material.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

FULTON CIRCUIT COURT.
September Term in Session.
Business Moves Slowly.

Judge R. J. Bugg, of Bardwell, is presiding. Commonwealth Attorney, R. L. Smith, of Clinton, is prosecuting state cases, assisted by County Attorney Roney.

The Tyler will case is being tried today.

The grand jury has returned 18 indictments at this term of court. Yesterday Ben, James and Will Whitson, father and two sons, were arrested for shooting at E. J. Die, of Tip-tonville, and gave bond. Jesse Moore is in jail charged with shooting a man by the name of Donaldson in the bottom.

Up to this morning the following business has been transacted:

PROSPEROUS OPENING. Public Schools Open Monday With Good Attendance.

Our public schools opened Monday with every promise of being the best attended and most successful school year in their history. The total attendance for the first day was about 650, and many others will fall in line before the end of the month. Of this number, 500 pupils are enrolled at the college building and 150 at the new Tyler school in West Hickman.

A handsome 4-room brick building takes the place this year of the little frame structure used for that purpose in 1910. This beautiful \$4,000 model school building did not cost our tax payers a cent, but is the gift of that prince of good fellows—Gen. Henry A. Tyler—to our people and to the little ones of our district. Mr. Tyler's generosity is unbounded when it comes to helping his fellow man, and words are inadequate to express our appreciation—as a citizen of Hickman—for this magnificent building. It solves happily the problem which the school board faced as regards the lack of room for the continually increasing attendance, and should be a source of joy both to parents and little tots, who heretofore, were forced

to walk a mile through cold and rain or miss school. The building is a model in every respect; Gen. Tyler believed the best was none too good for Hickman. In carrying out his ideas, he spent several hundred dollars more than he anticipated, but the extra bills were paid cheerfully, and he, too, derives a pleasure in knowing that it is the best—that it is a permanent institution and that it will be a source of benefit to mankind when many of us are no longer among the living. Our hats are off to Gen. Tyler. May he live long and enjoy life in that proportion to which he contributes to the happiness of others.

The teachers this year are: Prof. B. F. Gabby, principal. Miss Inez Luten. Miss Annie Sharron. Miss Faustina Wingo. Miss Mattie DeBow. Miss Mattie Mae Seay. Miss Mildred Ramage. Miss Imogene Moore. Miss Bette Bruer. Miss Louise Atwood. Miss Lite Faris. Miss Annie Ballow. Mrs. Avee Journey. The last three teach in the new West Hickman school.

Special teachers are: Miss Marguerite Fuqua, instrumental and vocal music. Miss Effie Bruer, typwriting, shorthand and penmanship. R. E. Millet, bookkeeping.

This gives us a total of sixteen teachers; all good ones, and the outlook for a fine school could not be better. Building, fixtures and ground have been put in good shape by the directors. The Carnegie library is also a valuable asset along with the many other good features of Hickman's public schools. In fact, we offer as good school facilities as can be had in the state.

Few people have any idea what an incentive it is to both teacher and scholar to know that parents and outsiders are taking a lively interest in their work. We believe the "little folks" at school appreciate such interest more perhaps than the larger ones. Still the effect is not lost on any of them, and we hope every parent will take a hint from this and place the public school on their visiting list.

The wise merchant will spend some money for printer's ink just now, while there is a possibility of increasing his fall and winter business.

APPOINTS COMMITTEE. Other County Members Should Do the Same.

J. T. Dillon, a member of the Fulton county campaign committee, has appointed the following committee for his precinct. Other members of the county committee should do the same and make a concerted effort to get out a big vote for the coming election.

J. T. Dillon, Chairman.
A. M. Tyler.
H. F. Remley.
G. L. Carpenter.
W. T. Sudberry.

A mighty interesting meeting is in progress at the Baptist Church. Special music and good sermons are attracting large crowds, and much interest is being manifested in the good work. Rev. Wingo, the pastor, invites every one to attend.

We notice a number of small boys, about the first and second reader size, on the streets of Hickman, taking up the cigarette habit. Now is the time to nip this nuisance in the bud. A small barrel stove or a good seasoned hickory, properly applied, will prove a very helpful remedy.

SWAIN SHOW COMING.

Commencing with Monday, Oct. 2, the W. I. Swain show will play a two week's engagement in Hickman.

The Swain Company will be remembered as having made a weeks stay here during the tenting season of 1910.

New plays, new scenery, new people and new equipment have been secured by Mr. Swain this season and those visiting the big tent will receive the same courteous treatment by the management of the Swain Company.

To the already large repertoire of plays have been added such well known successes as "The Cowboy and the Squaw," "Gold Fields of Nevada," "Why Women Sin," "Foxy tha M. Clay's best novel "Dora Grandpa" and dramatization of Ber-Thorne."

The big rain proof tent will be erected on the lot near the N. C. & St. L. Ry., and no doubt the Swain Company will be greeted by a goodly number of show-going people of Hickman at their initial performance.

READY FOR BUSINESS.

Dr. I. Kagan, of Chicago, has opened his optical parlors and jewelry store in the Baltzer building, and is now ready for business.

The new concern will be known as the Hickman Optical Co. They will make a specialty of optical work, but will carry an extensive line of novelty jewelry. The line is as yet incomplete, though new goods are arriving daily.

A part of the Baltzer building is also occupied by Pullen & Murphy, photographers. This concern has enjoyed a large increase in business since coming to Hickman, and more room was necessary. Pictures will be made at the new location, but they will do their finishing at their old stand.

WEATHER: Showers today; Friday probably fair.

The school shoe problem is not altogether an easy one, but Bradley & Parham sell the kind that helps to solve it.

LINEN SHOWER.

In Honor of Miss Mabel Wilson
Who Marries Next Month.

Miss Bettie DeBow entertained at a Linen Shower, Tuesday afternoon, at the residence of her sister, Mrs. W. L. Helm, in honor of Miss Mabel Wilson, whose marriage to J. Ross Cheshire, of Nashville, is soon to take place.

Much interest was manifested in the event by the fashionable set, who attended in large numbers. The color scheme, which pervaded the parlor floor, was white, green and yellow—the same to be used in the wedding decorations—and made a beautiful background for the many youthful faces present.

Miss Wilson was handsomely attired in a modern creation of wisteria chiffon over pink silk, with hat and other accessories to correspond.

Mrs. F. T. Randie, her sister, wore a pretty gown of white material with lace and pearl bead trimmings.

Mrs. Wilson wore a becoming costume of some new shade, and the bridesmaids, Misses Bettie DeBow, Virginia Prather and Charlotte Hubbard wore tasty gowns of white lace, etc., combined with colors in silk and ribbon suited to their respective type of beauty.

Mrs. H. L. Amberg and Helm received the guests and wore organdie and blue silk. Miss Marguerite Fuqua presided at the ever-refreshing punch bowl and wore pale blue silk. Many useful and ornamental articles of dainty needlework was showered upon the bride-elect as she occupied the seat of honor beneath an artistically draped umbrella, which held the gifts. After duly inspecting each piece the guests were invited into the splendidly appointed dining room and served brick cream of green and yellow with white cake.

Other functions are to follow in Miss Wilson's honor, before the eventful date—Oct. 3rd.

A. E. Wheeler, of Route 2, says the crabgrass has about got the best of the cotton fields in his neighborhood; and, incidentally, makes a good suggestion in that line. He believes it would facilitate picking if a short log, with a mule hitched to one end, was dragged between each row. This is certainly worth a trial.

SURPRISE WEDDING.

Ruth Walker and Chester Barnes Married in Union City.

One of the biggest surprises in the matrimonial line to occur among Hickman's social set in a long time occurred last night when Miss Ruth Walker and Chester Barnes eloped to Union City and were married at 10:30 by Rev. W. C. Sellers, of the First Methodist Church, at his home.

The couple left here last night about 9 o'clock, carried by A. G. Kimbro in his touring car, accompanied by the groom's sister, Miss Cecil Barnes. Their plans were carried out with such dexterity that no one suspected anything until word came back announcing their marriage.

The bride is the only daughter of Col. C. L. Walker and wife, and a charming, refined young lady possessing a large circle of friends. Besides her many other inestimable qualities, Ruth is a talented musician and one of the social favorites of the younger set.

Mr. Barnes is the eldest son of Mr. and Mrs. Alex. Barnes. Few young men of our acquaintance are held in higher esteem by all who know him than Chester. He is a young man of excellent habits, industrious and has the ability to make good in anything he undertakes.

Soups Without Meats.

In these days of high prices we must use every means to have a good meal with a small expenditure. Soup starts a meal well and there are legion that may be prepared very cheaply. The object of taking soup at the beginning of a meal is to warm, stimulate and prepare the stomach for the heavier meal that is to follow. The clear beef soups are valuable only as to warmth and stimulation. Cream soups are a food, and are only served when the dinner or meal to follow is a light one.

Cream of Corn Soup.—Take a can of corn, a quart of milk and a grated onion; cook together until well heated; add a binding of a tablespoonful of butter and flour cooked together, and added to the soup. Season with salt and pepper, put through a sieve, reheat and serve.

Potato soup is one that is most appetizing. Use two or three potatoes, cook until tender with a slice of onion, put through a sieve, add a quart of milk and the binding of a tablespoonful of butter and flour; season and serve.

Mock Oyster Soup.—Scrape 12 good-sized roots of the oyster plant or salsify, and throw them at once into cold water. Cut in thin slices and cook until tender in boiling water. Add a quart of milk, two teaspoonfuls of salt, a few dashes of cayenne and two tablespoonfuls of butter. Searve in a tureen with oyster crackers.

Pea Soup.—Take a quart can of peas, heat and put through a sieve; add two teaspoonfuls of sugar, a pint of milk and two tablespoonfuls of butter and two of flour cooked together and added to bind. Cook until smooth, season with salt and pepper and serve.

Spinach and asparagus make very wholesome soups, also onion and cabbage. Celery makes a soup of delicate flavor and may be made of the parts of the celery too coarse to serve in other ways.

The Courier's Weekly Sermon
BY PASTOR RUSSELL
SUBJECT

GOD IS RESPONSIBLE INDIRECTLY FOR THE PRESENT REIGN OF SIN AND DEATH

Pastor Russell Tells a Spell-Bound Audience Why God Permits Sin and Calamities. What Purposes They Are Serving and How Eventually They Will Accomplish Good For Men and Angels and Bring Glory to God.

(PASTOR RUSSELL)

Springfield, Mass., Sept. 17th. —Both of Pastor Russell's discourses here today were heard with close attention by large audiences. One was on the "Hereafter;" the other, which we report, was on the Divine Permission of Evil, from the text, "Even so."

Father, for so it seemed good in Thy sight" (Luke 3, 21).

Pastor Russell declared that only those who, through the Bible, get at least a glimpse of the glorious outworking of the Divine Plan, understand God's reasons for permitting the reign of sin and death, of sorrow and pain, which has prevailed amongst mankind for six thousand years. The Almighty, he said, designs to teach great lessons to angels and to men. Hence the Divine dealing with mankind has been very different from His dealing with angels. The holy angels, being perfect, have known no sin, no death penalty, no sorrow, sickness or pain. They might have had some conception of Divine Justice, Wisdom, Love and Power, but could never have really understood their great Creator, had it not been for His dealings with humanity—His permission of sin and death among Adam's posterity.

Cost of Sin to Man.

Not only was Divine Love manifested in providing a Redeemer, but Divine Justice was exemplified in rewarding that Redeemer with the highest glory—"far above angels, principalities and powers." Additionally, God's love has been seeking out the loyal of mankind, the saintly few, to be the Bride of Christ—to be associated with the Redeemer in His glorious Kingdom, which is shortly to bless and uplift the race of Adam from sin, from meanness, weakness and death.

When we think of the aggregate of sin, sorrow, pain, the calamity of death, for six thousand years, the picture is truly awful; but we should remember that this has been distributed, here a little and there a little, amongst the twenty thousand millions of our race, one-half of whom, perhaps, have died in infancy. Few have lived to three score years and ten. I believe that even the most sorrowful lives known to the world have had compensatory seasons of pleasure, joy, happiness. I believe that only a few have died regretting that they had

been born; and I am sure that with a proper understanding of Divine future provision they would not regret their birth, with its attachments of sorrow. Pastor Russell believes that human restitution, during Messiah's reign of a thousand years, will, in some respects, bring to the willing and obedient greater joy, greater blessing, greater appreciation of perfection and righteousness than if they had not known imperfection and sin.

Thus mankind will really lose nothing by the Divine permission of evil, but, on the contrary, will, by the increased knowledge gained through the reign of death and evil, learn lessons which will be of advantage to them to all eternity.

Divine Power Revealed.

As the penalty of death reveals Divine Justice, and as the redemption from that penalty reveals Divine Love, so the recovery of mankind from death will reveal Divine Power, as nothing else could reveal it. Pastor Russell declared that the power which God promised to exercise in the resurrection of the Church to the spirit plane, and in the resurrection of the world to the human plane of being, will surpass any power ever exhibited in the past. To create the world, the angels and all things is truly a wonderful manifestation of Divine Power; but to recreate man after he has gone back to dust, is something still more wonderful. In restoring man's soul or being, his intellect, his thoughts, Divine power will be exemplified in a manner and to a degree which is beyond human conception. When we remember the billions of earth's dead, and all their diversified experiences, which were impressed upon their memories, the power to accomplish the full restitution of that which was lost is so infinite as to be incomprehensible, though we fully believe the promise.

The grand finale, Pastor Russell declared, will be the revelation to angels and to men of the much diversified wisdom of God. The wisdom which foresaw the end from the beginning, and which has been regulating the affairs of mankind to a fore-ordained end, and which will ultimately bring order out of confusion, surpasses anything that angels or men have ever dreamed of on the part of their Creator. The Scriptures say, "True and righteous are Thy ways, Lord God Almighty; for all the nations shall come and worship before Thee when Thy righteous dealings shall be made manifest" (Revelation xv, 4).

THE TIME TEST.

Hickman People Cannot Demand Stronger Proof of Merit.

The test of time is what tells the tale. The public is quick to discover misrepresentations and merit alone will stand the test of time. Long ago many grateful people in this locality publicly endorsed Doan's Kidney Pills; they do so still. Would these statements be confirmed if Doan's Kidney Pills did not possess lasting merit? The following testimony should convince the most skeptical Hickman reader.

Mrs. George Combs, Cedar st., Fulton, Ky., says: "For some time I suffered from backache and weakness across my loins. Any over exertion aggravated my trouble and at times I could hardly work. There were other annoyances due to weak kidneys. A member of my family found wonderful benefit from Doan's Kidney Pills and induced me to try them. He procured a box for me and I began their use. In a few days I noticed a change for the better and after I had finished the contents of the box the backache and all other distressing symptoms of my trouble had completely disappeared." (From statement given in 1903.)

A PERMANENT CURE

On May 15, 1907, Mrs. Combs confirmed the above statement, saying: "I have never had occasion to use Doan's Kidney Pills since I gave a public statement, recommending them in May, 1903. I advise anyone suffering from kidney trouble or backache to give Doan's Kidney Pills a trial."

HURT IN RUNAWAY

Milton Hinshaw Badly Hurt.
Harness Broke.

Milton Hinshaw, the 13 year old son of W. A. Hinshaw, was badly bruised up last Friday evening in a runaway. The accident occurred at the foot of the concrete steps leading to Southern Heights. The young man says some part of the harness broke while driving down a short hill. The mule became frightened and ran.

Milton was thrown from the buggy. When found sometimes later by Miss Nell Peavler, he was unconscious. He was carried to the Peavler home and medical aid summoned. A hasty examination showed signs of internal injuries, fractured ribs and several bad bruises; he is, however, resting well at present.

The buggy was wrecked.

Hickman has a few individuals who persist in ordering their calendars, wedding invitations and various and sundry other job work from some city concern, when that same work could be done in Hickman. Didn't know it could be done in Hickman?

We'd believe that about as far as we could throw a bull by the tail.

Yet, these same parties would raise the greatest howl if the local paper overlooked an opportunity to dish out about a column of "hot air" about their business. They are great shouters, too, when the local paper jumps on some one else who sends away from home for what the aforesaid shouters has to sell. They like for us to flail the stuffing out of the mail order business—but they don't even give the local printer a chance to figure on their work.

Inconsistency? Well, I guess.

The fellow who practices this business is a town killer.

He ought to close up as tight as a clam.

But let us ask you—

How much taxes does the city printer pay for educating your children?

How much does he give your churches and institutions which depends entirely on public donations?

How much free advertising does he give our town and its institutions?

How long would your business continue if every citizen bought his stuff away from home, without even giving you a chance to figure on things in your line?

How often does the city printer magnify your virtues and give them a public airing, (at the same time looking through the big end of the telescope at your faults)?

In fact, what kind of a man are you who don't even give your neighbor and fellow citizen a chance to do your work?

SURVEYING ROUTE

For New Electric Line from Paducah to Hickman.

Surveyors are now on the job of surveying the route for the new electric railway from Paducah to Hickman and intermediate points. Work is going right ahead.

Referring to this subject, the Paducah News-Democrat, of Saturday says: "Major H. C. Calhoun, of Buffalo, N. Y., who recently returned from engineering a railroad through the Andes mountains will arrive here tonight and will take personal charge of the engineering and surveying work. A force will be started Monday and the line to Mayfield probably will receive their attention first. From Mayfield it is probable that the surveyors will be sent towards Murray and thence to the Tennessee river.

"Local officers of the company refuse to talk when questioned, as to the connection the electric interurban line has with the Southern railroad. That the interurban route begins at Rockport, Ind., one of the terminals of the Southern, and runs to Hickman, the head of deep water navigation in the Mississippi, however adds color to the report that a connection with the Southern at Rockport is intended. Arrangements for a large dock at Hickman is taken to indicate that the company will forward the Sturgis and DeKoven coal south by river.

"That the road will be deflected from the air line only by the solicitation and interested communities that really want competitive freight rates and which are willing to treat the line as a local enterprise, is the statement given out by officials of the road. They reiterate, however, that they will ask no bonuses or donations."

CIRCUS BRINGS CROWD

Monday Town was Filled with Sight-seeing Visitors.

Hickman entertained several thousand people Monday.

The principal attraction was Sun Bros. Circus, which exhibited here in the afternoon and night. At the afternoon performance, hundreds of people could not get seats in the big circus tent, although they have a seating capacity of upwards of 3,000. The management informed a Courier man that Hickman is one of the best "show towns" they have visited this season, and were very much gratified with their visit to our city.

Some pronounced the show punk; others say it was fair, and still others thought it was fine. As a whole we presume, it filled the bill. It was as good as most shows in its class. At least, it gave folks a chance to get out and rub elbows, drink red lemonade, survey the monsters of the jungle, be thrilled by the aerial artists in pink tights and laugh with the mirth-making clowns. In a sense, all circuses are the same; but they possess a fascination for all, from the small boy to his grandad, who excuses himself for being there on the grounds that he had to bring the boy.

Sun Bros. carry a small but good collection of wild animals.

The day passed off without any mishaps. Some of us may have a little less change by being there, but we're just as happy for all that.

Let them come once a year.

NEW SHOW BOAT COMING.

Menke & Coleman's Floating Hippodrome said to be the largest and best equipped floating theatre in the world is scheduled to make its appearance in Hickman in the near future. This is a new show boat and this is their first trip down the Mississippi. The boat has a seating capacity of over 1400 people and they are presenting musical comedy and vaudeville. The "piece de resistance" this year is entitled "The King of Kazam." They carry a company of 50 people and are featuring the big aerial illusion "Creation". The apparatus necessary to present "Creation" is the biggest piece of stage machinery ever constructed, having a gross weight of over six tons. The boat is at present on the upper Mississippi and reports from that section seem to indicate that they have left a most favorable impression in all the towns that they have visited.

Chief of Police Huddleston, of Fulton, was in town Monday.

IT'S 'TESS and TED' TIME

The alarm is ringing. It is time for "Tess and Ted" school shoes. They are "Better" shoes—new—just recently placed on the market. We have "Tess and Ted" shoes for girls and boys in styles for the nicest wear as

FATALLY SHOT Russian Premier Shot By Anarchist.

Kiev, Sept. 19.—The condition of Premier Stolypin, who was shot by Dmitry Bogroff Thursday night, is causing his physicians alarm. Peritonitis has set in and the patient's heart action has considerably weakened.

A bulletin was prepared in view of the change for the worse, as it was deemed advisable to inform the public of the true nature of the premier's wounds. This bulletin follows:

"A change for the worse in Premier Stolypin's condition set in last evening. Symptoms of local peritonitis were noticed, with indications of effusion of blood under the diaphragm. At 6:30 o'clock this morning the patient's temperature was 96.9, pulse 80, respiration 26 to 28. The temperature two hours later was 98.6, pulse 104, respiration 24 to 26.

"The bandages were removed at 10 o'clock and the mouth of the wound was found to be in a satisfactory state. The bullet was felt under the skin, and removed, a local anesthetic being employed. The patient stood the operation well in every way."

The premier showed no improvement during the day, but the doctors expressed the opinion there is no great cause for alarm. A midnight bulletin, however, was not reassuring. It read:

"Late to-night M. Stolypin is still showing symptoms of peritonitis. Temperature, 98, pulse 116 to 120, respiration 28."

Later: Stolypin died yesterday.

STATESMAN DEAD Insurgent Leader from Kansas Dies Suddenly.

Dodge City, Kas., Sept. 19.—E. H. Madison, representative in congress from the Seventh Kansas district, and a celebrated Republican insurgent leader, died at his home from apoplexy. His death was sudden.

Madison, allied with Victor Murdock, the Wichita (Kas.) congressman, and Congressman George Norris of Nebraska, led the Republican insurgents in their early struggles in the house and was prominent in the revolt against Speaker Joseph G. Cannon. He also figured prominently in the Ballinger-Pincus investigation, in that he filed a minority report of his own, which agreed in some particulars with that of the Democrats in denouncing Secretary Ballinger.

Was Native of Illinois.

Madison was born in Plymouth, Ill., Dec. 18, 1865, was educated in the common schools of Illinois, and at the age of 18 began teaching school. In 1885 he moved to Wichita, Kas., and began the study of law in the office of G. W. C. Jones. He was admitted to practice in 1888 and in the same year was elected county attorney of Ford county. He served two terms and was appointed judge of the thirty-first judicial district of the state Jan. 1, 1900. This position Judge Madison held until Sept. 17, 1906, when he resigned to become a candidate for congress.

He was married Dec. 12, 1900, to Miss Lou Vance of Oklahoma City.

Judge Madison was elected to the Sixtieth and Sixty-first congresses and re-elected to the Sixty-second congress.

TWO FRIENDS SWAP WIVES

None of New York Party Knows It
Until the Four Meet on Honey-
moons in West.

Los Angeles, Cal., Sept. 19.—"Why, hello, Mary."

"On my word, if this is not Edith. Well."

The rest of the sentence was lost in a gasp of amazement at the trick fate had played two school friends who had not met for many years.

The persons who thus merrily greeted the women were George H. Richardson of New York and Wm. S. Holmes of Boston, both of them brokers when they are at home. When they met in the lobby of a hotel here they were on their honeymoons and when they presented their wives each discovered that he had married the divorced wife of the other. They found, too, after a few moments' conversation that they had traveled across the continent on the same train all the way from New York, and had even stopped off at the same hotel in Chicago.

Chicago, Sept. 19.—While Samuel Remington was attending church service at Polk street and Ashland avenue, someone reached into his pocket and took out a wallet containing \$400 in notes.

"It's getting pretty bad," he complained to the police, "when you can't even go into a synagogue without being robbed."

A Hint To Mothers.

If you wish to cultivate a gossiping meddling, censorious spirit in your children, be sure, when they come home from church, a visit or any place to which you do not accompany them with questions concerning what every body wore, what every said and did; and if you find anything in all this to censure always do it in their hearing. You may rest assured if you pursue a course of this kind, they will not return to you unladen with intelligence; and rather than it should be uninteresting, they will by degrees learn to embellish in such a manner as not to fail to call forth remarks and expressions of wonder from you. You will by this course render a spirit of curiosity—which is early visible in children and which, if rightly directed, may be made the instrument of enriching and enlarging their minds—a vehicle of mischief which shall serve only to narrow them.

The Popular Idea of Marriage.

It is certain that the society man of today marries a woman who makes his home a restful place from which he is seldom tempted to wander. Why should he? The sunniest, brightest room in the house is his sanctum; here are his favorite books, pictures he likes, the latest magazines with leaves cut out and no end of pipes. When the train whistles into the depot, in which is this fortunate man, a fire is started on the low hearth to make the room cheerful, although the warmth is not needed. To this room he brings his friends and here husband and wife sit when alone. Every thing that will help the wife to make home a means of grace she reads on her table are always to be found books and magazines that talk of the higher life of the home. We mean good cooking when we say higher life a hitherto much neglected part of re-creating, rarely goes to the theater or opera, or ball, because his home has greater attraction and he is really now so sensible, well-informed, and amounting to something that his friends are rejoicing that the seemingly incongruous marriage came about.

educated from infancy with this aim constantly before her. Her mother should go to her playhouse and teach her how to arrange it nicely. Get her a trunk and see that she keeps her things well arranged in it. Give her a place for her playthings. Then see that others do not molest them. When she is older, give her a room to keep tidy. Also have her to help do any and every kind of housework. Tell her of your aim. Explain that it is all for her own good in the future. When she is twelve go visiting and let her see how much there is to do, and how well she can manage it.

Some girls are discouraged after marriage to find so much more to do than they anticipated. Worse still, to find themselves so ignorant how to do. Explain that there is a real pleasure in doing most any kind of work after we learn how. That after she is married, she will neither have time to learn nor have a teacher. That she must have pride of character, self-control, self-reliance, and self-denial. That she must be cleanly, orderly, energetic and persevering. Reaching her aim depends on her own efforts. That she must make herself do the right thing at the right time in the right way.

Urge her to take care of her health To be in bed at 9. To be temperate in all things. To cultivate and practice good morals and gentle manners for the sake of her influence on others. To practice eating, walking, talking, etc., at home as though she were abroad. Because practice makes perfect, and because repetition forms habits and habits are second nature.

In short, see that she marshals all her forces to reach her aim. When it can be truly said of her that she is useful as well as ornamental, and that she has a good practical, all-round education, her mother has looked well to the way of one of her household. Our opinion is that all this cannot be accomplished in less than twenty years. That a girl is not capable of looking well to the way of her household younger than this.

At twenty this girl is now capable of making her own choice. If her husband takes a wrong view or wrong aim she can reason him into right by gentle, patient perseverance. She will

reign queen of her home and her home will be a thing of beauty and a joy forever.

LONG AFRICAN TRIP. English Girl Penetrates Wilds of Dark Continent.

London.—Miss Olive MacLeod, who left England in August last to visit the grave of her fiancé, Lieut. Boyd Alexander, who was murdered by natives in central Africa, recently arrived in England.

She was met by her father, Sir Reginald MacLeod, when she landed, and left for Paddington. Thence she proceeded by motor car to her beautiful home, Vintners, near Maldstone.

Altogether the African journey consisted of 2,700 miles, mostly on foot or horseback. P. A. Talbot, district commissioner of Niagara, and Mrs. Talbot, accompanied her during the whole of the journey, and were responsible for the arrangements.

Among the many trophies that Miss MacLeod brought home were two baby lions, which were presented to her in French Niagara.

Miss MacLeod was very eager to take them home with her, but, being now six months old, they were thought to be rather dangerous pets for Maldstone, and have been sent to the zoo.

During the journey Miss MacLeod traversed land across which no white woman had ever been before. At times the party included as many as 80 natives, these being required to carry stores and food.

Miss MacLeod, with her companions, on arriving at the west coast of Africa, traveled up the Niger as far as

Miss Olive MacLeod.

she could go in the steamer and canoes.

After going through southern and northern Nigeria the expedition reached French Mbanga in October, and the falls of the Mao Kali were located.

According to the testimony of French officers and natives, these falls had never been seen before, and in honor of "the brave English girl" going to visit her sweetheart's grave, the French authorities asked for permission to name the falls "Les Chutes MacLeod."

Pushing on into the heart of Africa, Miss MacLeod proceeded through the Tuburi lakes, and eventually reached the Shadi down which she traveled to Lake Chad.

Here the picturesque rocks of Hadj-el-Hamis were inspected, which are held in veneration for miles around.

The highest peak of these rocks was climbed by Miss MacLeod and her companions—a feat which the natives declared to be impossible.

Lake Chad was then crossed in kotoko canoes. This journey took eight days, five of which were spent out of sight of land.

Near Lake Chad the grave of Lieut. Boyd Alexander was visited—the pathetic object of Miss MacLeod's long journey.

Discussing her travels at Plymouth, Miss MacLeod said that the greater part of the route chosen was unknown to Britons.

On arriving at Lagos she said she was surprised to hear rumors that "Miss MacLeod" had been massacred and eaten by cannibals!

Lucky the Snake Crawls.

Cambridge, Mass.—The serpent is even wiser than the woman tells us, according to Professor Maynard, the noted educator here. In a rather startling statement, the professor declares that as a result of a study of snakes he is convinced that had they been able to develop hands and feet instead of being obliged to crawl, their brains would have enabled them to dominate the world. In that event, he asserts man would probably have remained in a primitive, savage state, or possibly even as an ape.

T. J. Ogilvie, editor of the Ridgely Gazette, and Messrs. Murdock and Alexander, also of Ridgely, were here yesterday enroute to Nashville to attend the Tennessee State Fair.

The dog crop of Kentucky, of which Fulton county has her share, remains on the average. There were 143,688 dogs reported to State Auditor James in 1911. This report means that after the sheep have been killed or died for want of being killed are paid for there remains about \$50,000 to go into the school fund.

There is a habit and a delusion among a large number of our people to go to some nearby town or city to shop, believing that they can purchase cheaper. We think these good people may be lured by their own thought. Please reckon your own care and time, if the latter is worth anything. If Hickman merchants try to "soak" you or have not what you want, of course, you are justified to go elsewhere. But first find out by getting prices and see what your home merchants have.

Chief Huddleston brought a negro, Bob James, to Hickman Monday and landed him in jail. He is said to have broken into the home of Wade Hardy and stole a lot of wearing apparel.

The postmaster has a new way of catching flies, and is working it with pronounced success at the postoffice this week. He takes a jug that has had licked in it, places a funnel in the neck and drives the flies in. Then when they come staggering out—he swats them with the stove shovel.

Frisby Hancock is greasing his wagon, culling his team, and making other preparations to make a trip to Tickville, after a spool of thread. It is now on sale there at a bargain sale for four cents a spool; the Hogwallow postmaster holds the price at five cents.

The scarcity of snakes in and around Hogwallow this summer is explained at last by Frisby Hancock and Wash Hocks, who now announces that they canvassed the community early in the spring and stopped all the snake holes they could find.

Miss Cordella Hellwanger has bought a handsome accordion, and will compete with Miss Rosyola Moseley for musical honors and social esteem. She says she can play any piece of poetry ever written, whether it rhymes or not.

Jefferson Potlock took his family to Tickville one day last week and had the picture artist to take them in a group. The family was so large the photographer had to write "over" on the bottom of the picture.

The Deputy Constable has decided to try to capture that standing One Hundred Dollars Reward that has been offered for so long through the weekly papers by the Hall Catarrh Company.

Luke Mathewsia will soon be seventy years of age. He remembers many incidents of pioneer days, principal among them being the last time Eke Eazley worked.

Little Fidelity Flinders has started to school at the Wild Onion schoolhouse, and today surprised the teacher by presenting to him a nice boiled egg.

Tobe Moseley reports to Deputy Constable that a stray mule jumped into his field the other night and drank up all the water in his pond.

A hand organ has been added to the Excelsior Fiddling Band. It was stolen from a blind man at Tickville last week by Raz Barlow.

Clab Hancock is getting estimates on the cost of opening a blind tiger

The hunting season on all sorts of game, including rabbits and squirrels, closed Saturday, September 16, until the quail season begins November 15. A few years ago the legislature passed a law prohibiting hunting of any kind during the two months immediately preceding the open season for quail. This was done because many people would go out hunting under the pretext of killing rabbits, squirrels, etc., and would also kill quails before the law was out. In order to stop this the law was passed and it is now regarded as prima facie evidence of guilt to even be caught in the field during these two months with dog and gun.—Kentuckian.

Miss Cora Morehead, stenographer of the circuit courts of this district, has just returned from a trip through European countries. She visited England, Wales, France, Belgium, Holland, Switzerland and Italy. It pays to be a court stenographer.

T. M. French was in Fulton, Monday.

During an automobile race at the fair grounds at Syracuse, N. Y., Saturday a racing car driven by Lee Oldfield, brother of Barney, leaped from the track and plunged into the throng of spectators on the other side of the fence. Ten people were killed and a number of others injured. Oldfield was internally injured and also suffered a broken rib. The tire of the car blew up, which caused the accident.

Fred Hayden said his No. 8 Island farm to Val Carpenter, and will move to Wilton, Ark. Mr. Hayden made a trip to that place last week and tells us that it is the finest country he ever saw. While there he purchased an eight-acre suburban tract on which he will make his home. Among the other fixed advertisements of that section is a citizen 82 years old who is said to have made 72 crops which shows that Wilton is almost as good as Fulton county in the matter of health.

READ ARTICLE IN COURIER.
May Mean Small
Fortune for Them.

Three weeks ago the Courier printed an article to the effect that Mrs. E. H. Owen, of Arlington, will fall heir to a fortune. She is related to Sir George Calvert, who was given a tract of land located in the City of Baltimore, by the King of England. A 99-year lease expired on it several years ago and the property has been in litigation since, but the estate is now ready for settlement.

It has developed that Fulton county has several heirs to the estate and they are getting plans on foot to prove their interest in it. They are: Israel Clark, Mrs. M. E. Rose, Mrs. P. B. Henry, Mrs. Sam Chandler, of Tennessee, and the children of Obid Clark.

The amount that each of the above will receive is in the neighborhood of \$125,000.

It pays to take this paper.

Mrs. S. V. Gregory and daughter, Miss Frances, after two weeks visit with Mrs. Harry Holcombe, returned to their home in Jackson, Tenn., Sunday.

ON EASY STREET.
Country Editor Has Best
Time of all.

Every once in a while some cheerful individual remarks to us: "Well now that the paper is out I suppose you can take it easy for three or four days." Yes, how delightful it is that a country editor has practically nothing to do between press days. When paper bills come due money drops off the trees with which to pay them. Subscribers vie with each other to see who can pay the farthest in advance. Advertisers beg for addition space. And the way of the news hunt's up the editor is also pleasant to contemplate. There is something really strange about the way the news items act. When the paper is out the editor simply goes to his desk and leans back in his easy chair and looks wise and waits for next week's press day. The day before press day the people line up in front of the office door and then file pass his desk and tell him all the news of the week. He writes it up in ten or fifteen minutes, takes it back and hangs it on the hook. The compositor takes the copy, shake it over the type cases, say a few mystic words, the type flies into place and after a few passes by the foreman the forms are ready for the press again. And the editor goes down and deposits some more money in the bank. It is the greatest snap in the catalogue. Now if the editor could only do away with press day, his joy would be complete.

Early School Books.

The horn book invented in 1450 and used considerably up to the close of the eighteenth century was the usual textbook of the elementary school. A thin slab of hard wood was covered with parchment, on which was printed the capital and small letters, numerals and some elementary syllables and words.

Over this a thin sheet of transparent cow's horn was placed and firmly bound so that no moisture could penetrate. To this the Bible and the sampler on which little girls painfully attached the letters of the alphabet, some "Godly sayings" and a border of herring stitch, or some conventional pattern of impossible flowers and foliage and the legend "Mary Smith, her sampler," or the like, were about all that the children used up to the beginning of the eighteenth century.

KENTUCKY STATE NOTES. Items Gathered From Over The State.

Frankfort.—Lands in Kentucky per acre are valued at from \$3.31 to \$50.07. The total value of all the land in Kentucky for taxation is \$361,555,618, and the total number of acres 24,223,685, making an average value of land per acre \$14.50.

The laws governing assessments in this state are so defective that when a raise is made on the county it must be on the county as a whole, and in a very few instances these increases in the lands result in hardships, but such is never the case with the good lands. The values of the lands in the counties per acre for 1911 are: Adair, \$7.16; Allen, \$8.49; Anderson, \$15.81; Ballard, \$14.59; Barren, \$10.68; Bath, \$20.51; Bell, \$11.16; Boone, \$31.83; Bourbon, \$61.86; Boyd, \$15.18; Boyle, \$35.18; Bracken, \$19.63; Breathitt, \$5.20; Breckenridge, \$7.77; Bullitt, \$10.35; Butler, \$6.98; Caldwell, \$9.66; Calloway, \$11.73; Campbell, \$42.16; Carlisle, \$17.16; Carroll, \$21.71; Carter, \$6.14; Casey, \$6.72; Christian, \$14.41; Clark, \$38.26; Clay, \$5.73; Clinton, \$6.91; Crittenden, \$8.30; Cumberland, \$8.13; Davies, \$26.79; Edmonson, \$7; Elliott, \$5.12; Estill, \$7.31; Fayette, \$80.07; Fleming, \$18.82; Floyd, \$6.65; Franklin, \$23.58; Fulton, \$22; Gallatin, \$16.17; Garrard, \$32.16; Grant, \$14.38; Graves, \$16.38; Grayson, \$5.33; Green, \$6.48; Greenup, \$7.23; Hancock, \$12.23; Hardin, \$9.91; Harlan, \$11.59; Harrison, \$29.46; Hart, \$9.36; Henderson, \$23.27; Henry, \$23.86; Hickman, \$19.86; Hopkins, \$9.63; Jackson, \$6.14; Jefferson, \$7.5; Jessamine, \$45.88; Johnson, \$9.38; Kenton, \$42.55; Knott, \$5.56; Knox, \$9.43; Laclede, \$13.80; Laurel, \$5.89; Lawrence, \$6.10; Lee, \$4.61; Leslie, \$6.24; Letcher, \$7.76; Lewis, \$5.61; Lincoln, \$21.49; Livingston, \$10.18; Logan, \$10.89; Lyon, \$7.17; Madison, \$30.84; Magoffin, \$4.80; Marion, \$13.15; Marshall, \$10.20; Martin, \$4.20; Mason, \$42.42; McCracken, \$19.62; McLean, \$13.67; Meade, \$9.51; Menefee, \$4.56; Mercer, \$30.52; Metcalfe, \$7.20; Monroe, \$7.85; Montgomery, \$31.21; Morgan, \$9.23; Muhlenberg, \$6.94; Nelson, \$16.78; Nicholas, \$27.09; Ohio, \$9.01; Oldham, \$22.15; Owen, \$12.13; Owsley, \$5.98; Pendleton, \$15.10; Perry, \$5.21; Pike, \$4.98; Powell, \$6.97; Pulaski, \$6.71; Robertson, \$13.99; Rockcastle, \$5.41; Rowan, \$3.31; Russell, \$7.08; Scott, \$34.68; Shelby, \$34.97; Simpson, \$13.38; Spencer, \$16.75; Taylor, \$6.30; Todd, \$11.85; Trigg, \$7.45; Trimble, \$16.35; Union, \$26.52; Warren, \$18.79; Washington, \$16.98; Wayne, \$6.86; Webster, \$10.52; Whitley, \$7.92; Wolfe, \$6.46; Woodford, \$5.4.

RAINS HAVE HELPED.

Owingsville.—The crops of Bath county have come out wonderfully in the last two weeks. The grass will be the best fall grass in years, as it looks as green as in the first of June. The tobacco crop will be good and the late corn is coming to the front. The farmers say that corn will not be so high since the rain. Young mules are much higher in price than they were two weeks ago, and horses are bringing better prices. Cattle are on the rise now and farmers are anxious to stock up with feeders. The potato crop is a complete failure.

Kentucky's first woman's rifle team was organized with the following: Mrs. Jackson Morris, captain, and Miss Kathryn Frazer, Mary Foley, Louise Sheeting and Gazelle Toombs.

The governor appointed M. B. Clark as justice of the peace in the Fourth magisterial district of Livingston county, to succeed A. E. Chappell, resigned.

Antioch Mills.—Clark Aulick accidentally shot Quincy Riddle in the neck. The boys, who are about 15 years old each, went to church at Antioch and together with several other boys were behind the house playing with guns when that in Riddle's hands was discharged and the bullet entered Riddle's neck.

STATE WANTS LETTERS

Little Rock (Ark.) Board of Trade Issues Bulletin of Allurements for Benefit of Immigrants.

Little Rock, Ark., Sept. 19.—The Little Rock board of trade has issued a bulletin showing that the tide of immigration to Arkansas has turned from the northern to the southern and southeastern states, and is heavier than ever, and that the newcomers are from the professions as well as from the mercantile life.

The bulletin is based on information obtained from C. B. Schmidt, immigration commissioner of the Rock Island lines. That road has brought to the states in which the system operates 509,801 immigrants in the last five years, 20 per cent locating and buying homes in Arkansas.

Arkansas stands third in the number of new people received, Texas being first and Oklahoma second. The immigration increased from 48,068 for 1906-7 to 139,072 last year.

ILL. OUTRANKED IN COAL

West Virginia Leads by 15,000,000 Short Tons for 1910 Production, Taking Second Place.

Washington, Sept. 19.—The decreased production in Illinois and a big increase in West Virginia gave the latter state in 1910 a lead over Illinois of more than 15,000,000 short tons, and has apparently established West Virginia as second in rank among the coal producing states. Twice before, in 1906 and in 1909, West Virginia's production had exceeded that of Illinois, but in each case the difference was comparatively small.

The total production of coal in Illinois in 1910, as compiled by Edward W. Parker of the United States geological survey, in co-operation with the Illinois geological survey, amounted to 45,900,246 short tons, valued at \$52,405,897, as against 50,904,390 short tons in 1909, valued at \$52,405,897.

Pockets of Natural Gas Disclosed. Edwardsville, Ill., Sept. 19.—Preliminary bores have disclosed the presence of large pockets of natural gas near Edwardsville, and a new well is now being sunk at the western limits of the town. The present rate for manufactured gas in Edwardsville is \$1.30 a thousand feet, but surrounding communities which have natural gas pay as low as 25 cents a thousand.

Capitalists who recently purchased the farm of Jim Lee, near Blandville, in Ballard county, are sinking a shaft for coal. Experts have examined the earth on the farm and are convinced that a fine strata of coal lies beneath. In fact some coal has been found on the farm, and the experts in charge say that Southwestern Kentucky is destined to become the great coal mine center in the state. Land in that section is held at a fabulous price.

Quotations From Some of Actual Practices Followed by Successful Hog Raisers--Some of Difficulties Encountered.

(By G. H. ALFORD.)

The following quotations give some of the actual practices followed by successful hog raisers and suggest some of the most serious obstacles likely to be encountered.

In speaking of raising hogs for pork, Mr. Foster of Louisiana says:

"I think two litters should be raised where winter pasture can be had cheaply; otherwise only a spring litter to be turned off at eight or nine months. In feeding breeding sows, I simply see that they are improving in flesh and strength and have laxative food before farrowing. If pasture does not keep their bowels in good condition, I feed bran or cottonseed meal for a short time previous to farrowing. On our plantation I put up 32,000 pounds of green bacon last winter at a cost of a little less than 3 cents per pound on corn and alfalfa pasture, charging corn at 40 cents per bushel and pasture at \$5 per acre, but charging nothing for fencing, shelters or labor, as the pasture (40 acres) furnishing a great deal of feed for my colts, mules and cows. The greatest obstacle to success, I think, is disease caused in a majority of cases by crowding too many hogs together and disregarding sanitation. I never keep more than three or four litters, having my pasture subdivided by portable fences into small lots of one-half to one acre each, with a cheap shelter in each lot. I never saw all of a large bunch of hogs do well when fed together. The fewer in a drove the better."

Professor Duggar of Alabama:

"Two litters a year are practicable and profitable."

"The principal obstacles to success are:

"(a) The want of a market at steady prices. We need packing houses.

"(b) The attempt to make corn, which is high-priced in most southern communities, the main or sole food for the hog. We need special hog crops and pastures prepared especially for hogs.

"(c) Cholera, which is largely pre-

ventable by proper fencing, feeding and a knowledge of the means by which it is disseminated.

"(d) The cost of making hog-tight fences around fields where hog crops should be grown.

"(e) Scrub blood.

"(f) Financial loss due to keeping hogs past the age of twelve or fifteen months, and similar errors of judgment due to want of information."

Dr. Redding of Georgia says:

"I prefer to have sows farrow in March, the pigs to be made into bacon the following December; harrow again in September, the pigs to be sold for butchers' meat and consumed fresh. The March pigs in December should net 200 to 225 pounds each. The salted pork should be ready for 'smoking' by February 1. The September pigs should be kept in good butchers' condition and sold as the market may demand."

"Before farrowing, sows should be kept in good, thrifty condition, but certainly not fat, with moderate exercise required, or at least provided for. After farrowing, the best and most nutritious and milk-producing food should be given--mashed and scalded oats, shorts, bran, corn meal, wet up with water, some green food, and pasture. Plenty of pure, clean water is desirable. The little pigs should be taught to drink skim milk, thin bran mash, and the like as soon as possible. Later they should have a regular allowance of mashed oats, bran and corn meal, with such green food as may be available. I consider the common collard an excellent soiling food for hogs. The collard leaves are especially suited for growing stock of all kinds, but particularly for hogs. The plants should be set out one foot apart, in three-foot rows, in rich soil, in April. In a few weeks feeding may begin by pulling out every third plant and feeding them whole. Later, each alternate plant of those remaining may be removed and fed. After the patch has been thus thinned to one plant every three feet, commence to 'prime,' that is, pluck off one or more of the bottom leaves of each plant, and so on all summer and fall."

"Lucerne is an excellent soiling plant, better and more convenient than red clover. The saccharine sorghums and Indian corn (in roasting ear) fed 'stalk and all' are both good."

"It should not cost over \$5 or \$6 to produce a hog weighing 200 pounds."

"I know of no insurmountable obstacle to profitable hog raising throughout the south. In fact, there is hardly an impediment in the way. Want of well-established pastures is noticeable."

A Profitable Bunch.

FARMERS' TELEPHONES.

A dollar a month does not go far enough after it gets into the telephone company's treasury to satisfy the manager who has to pay the upkeep and operating expenses on a big rural line system, and keep a little small change to hand over to stockholders once in six months. He has to cut too many corners, and run too many chances of getting caught short of a bank balance by a sleet storm, or a law suit.

Twelve dollars is too low for farmers' line service on the average system, with the quality and cost improved as it has been in the last few years. It is time to start after this rate. The farmers can afford to pay more--why should not they be induced to recognize value received?

Of course we know what the farmers do when it is proposed to raise the telephone rate. But can this go on forever? What is the best way to get this thing into better shape? Some have done it already.--Telephony. (The Independent Telephone Journal.)

GENERAL FARM NOTES

Oats make the best grain ration for horses in summer.

One of the very best feeds to grow for sheep is fodder corn.

Blue grass and white clover make an ideal pasture for sheep.

Mutton breed lambs should receive grain as early as possible.

Some horses have learned to balk by being overloaded and abused.

The idle curry comb and the fat horse seldom live in the same barn.

Good time to stop the leaks is in the months when the least rain falls.

Frequent watering of the teams during harvest is good insurance against sunstroke.

Look out for ticks. Your sheep can not fatten if they are troubled with these pests.

Mature hogs that are thin may be made to gain a half pound a day on alfalfa without grain.

The brood mare in foal should be handled by a firm, steady hand, not an excitable, rash hand.

Do you ever give your horse a cool bath in summer? You know how good it feels when you bathe.

Lime, such as ground oyster shells or in some other form fed in soft feed will harden the egg shells.

A horse that is too straight in his posture jars himself and gets all the concussion of the road.

An umbrella on the cultivator is a better preventative of sunstroke than the cabbage leaf in the hat.

It is common sense that a mature sow will produce larger and more perfect pigs than a very young one.

Do not attempt to raise fall pigs without having first prepared a perfect system of housing for the winter.

Too much rain.

For cleaning and pressing phone 195. We call for and deliver your work.--White Bros.

Mrs. F. E. Wright, of Martin, is visiting her son, A. J. Wright, proprietor of the Hickman Harness Co.

We notice our old friend J. W. Menke has formed a partnership with Brad Coleman in the boat show business. They will give their first performance in Hickman, on their handsome floating theatre, the Hippodrome. We have known Mr. Menke for several years, and a finer fellow never lived. If anyone can make a success of the river show business, Menke should be the man. For many years he was the business-getter for Cooley & Hagan, and has a bunch of friends in every town along the river. Its dollars to doughnuts that the Hippodrome has one of the classical shows afloat.

Don't forget we have the best line of mattresses.--Hickman Furniture Co. Fruit jars at Bettersworth & Prath.

GOOD USE FOR OLD BICYCLES

Rear Portion of Discarded Machine
Converted into Wheelbarrow—
Handy on Any Farm.

The old bicycles are gradually being put to other uses. What struck me as a very novel idea was the converting of an old bicycle wheel and the frame from the seat post to hanger, into the running year of a wheelbarrow, says a writer in the Home-Steak. The owner of this wheelbarrow is a city man, but as he makes good use of it, there is no reason why a like contrivance would not come in handy

A Bicycle Wheelbarrow.

for us on the farm. He simply used the rear part of the bicycle, cutting the frame off in front of the seat post and hanger, and attached it with two clips and two braces in the manner as illustrated. He claims this runs easier than the ordinary wheelbarrow.

Greatest Crops.

Secretary Wilson says: "The greatest crop of America is grass and then corn. Next after corn is probably cotton, then come wheat and poultry, running neck and neck. The product of the henhouse is now nearly as valuable as that of the wheat fields."

Best to Buy Silo.

Do not undertake to build your own silo. Nine times out of ten you will be the loser. When the lumber, time and the durability of the structure are all taken into consideration, you will find you are coming out at the small end of the horn.

Cut millet for hay just after blossoms fall.

Horseradish is propagated easily by root cuttings.

Horseradish is generally in demand, why not grow it?

The clover belongs to the class of plants which are nitrogen gatherers.

After the corn is planted, and before it is up, it is always advisable to harrow.

In the seeding of spring grains, it is of first importance to sow as early as possible.

Sun and rain are the agencies that destroy the palatability and feeding value of hay.

The formalin treatment prevents smut in oats, but has no effect whatever on rust.

More than 77 per cent of the total production of German alcohol is obtained from potatoes.

Tests have shown the violet tinted varieties of white potatoes to be the highest in nutritive value.

A good deal of cultivation can be done on the smaller farms after the corn is planted and before it is up.

Red and white Valentine bunch beans are hardy and may be sown just as soon as the ground is warm and dry.

To prevent backache a Maine farmer has invented a jointed hoe to throw potatoes into a net with which it is provided as they are dug.

The clovers and oats, with corn for backing, and the use of sanitary conditions, should bring the answer to most swine producing problems.

Rye grass is believed to be the oldest grass grown especially for forage, having been cultivated for that purpose in England for more than two centuries.

Aviator Who is to Fly Down
Mississippi River.

Hugh K. Robinson has been selected by the Trans-Mississippi Flight Association to make the long aerial journey from Minneapolis, Minn., to New Orleans. He is one of the best known, most reliable and daring aviators fortunate enough to be alive today.

Hickman has not been called upon to help pay for this flight, but we will see the birdman just the same. Some of our people saw him fly at Cairo, July 4th.

Whether or not Robinson will be on this worldly sphere a month from now is entirely a matter of Robinson's good luck, for he is one of the variety of birdmen who tempts fate in every flight and then tempts it a little more just to see how far he can go without getting hurt. In view of that fact, the Courier gives a little of his "obituary" in advance. Robinson sprang into fame, or rather rode into it, when he essayed to loop-the-loop in a motorcycle, going at a mile-in-less-than-nothing clip. The first time Robinson wasn't successful. For three weeks he lay on a cot in a New York hospital and counted the flowers on the wall. A week later he was at it again. This time he did it. Then he began drawing the biggest salary of any acrobatic dare-devil in this country. But a few months of this career convinced Robinson that it was anything but pleasant. So he began looking around for something more to his liking.

Then he took up aeronautics. He boldly declares that he never jumped off the barn with his mother's umbrella. In the first place, he says, he didn't like the idea. He "might get hurt."

But while jumping off barns did not appeal to his favor, still balloon jumping did. So he purchased a hot-air balloon and three parachutes. He used to amuse himself and the crowd by jumping from one parachute to the other after he had cut loose from the balloon. (This sounds like a lie, and we think it is.)

On his first practice flight in an aeroplane he was instructed by Glenn Curtiss, the master aviator, to run the machine along the ground. Let Robinson tell what happened:

"The fool thing stayed on the earth for about two minutes after they unrolled it loose," he said recently, "then it jumped into the air just like a duck I'd been at the balloon game, but this was different. I pulled the wheel towards me and she went up to quickly that I came near sliding backwards. When I went to pull it back it had been jammed. I kept going up. Finally, I managed to work it loose. Then I came down."

"What happened then?" queried an interested bystander.

"Oh, nothing much. I didn't take any more lessons, though, for quite a while," he replied in a matter of fact tone.

When Glenn Curtiss invented the hydro-aeroplane, that aviator decided that he would like to specialize, so he undertook "hydro-aeroplaning," which has so fascinated him that he has given up the usual flying altogether and now accepts contracts for the air-and-water machine alone.

The aeroplane is much like the standard Curtiss type, except that at the end of each plane is fixed a water tight compartment. A third is placed under the base, running from tip to tip of the ski supports.

When the machine lights on the water it is supported by the hydro-ski. To rise the aviator simply starts his motor, and he skims along the surface gathering speed until he lifts into the air.

Robinson will start from Minneapolis on Oct. 11. Just when he will reach Hickman has not yet been decided, as he will stop overnight at every city along the river which subscribes a sufficient purse.

It is estimated that he will receive \$20,000 for the flight, which, if he makes it, will be a new world's record for continuous flight in an aeroplane.

Mr. and Mrs. Tom Samuels, Miss Harpole and Walter Woods, of Clinton, motored over Sunday and were the guests of C. C. Smith and wife.

W. B. McGehee will leave Friday for a trip through the Southwest. He will visit relatives at Argenta, Little Rock and Rogers, Ark., and San Antonio Texas.

At Fulton Saturday evening Miss Stella Sams and Tommie Cagle and Miss Kittle Sams and R. L. McWhorter were the parties to a double wedding at which Esq. Futrell officiated. The brides are daughters of Mrs. Chas. Sams, of Moscow, and the grooms are members of the Cagle and McWhorter families living northeast of Clinton.

The Tailored Suit for 1911-12

The new tailored suit is not the old-fashioned, severe, form-fitting garment, built on lines becoming to but very few people.

Nor is it the box-like suit of last season, with a skirt uncomfortably tight.

It's still rather straight and narrow, but the coat is fitted in a bit and there is a greater fullness to the skirt.

Coats Longer

Coats are very nearly all about 28 inches long. In the fancier models shorter coats are seen, but the more practical, tailored models are usually about 28 inches in length.

Skirts Wider

Skirts are all very simply made. In some of them added fullness

has been let in by means of clusters of plaits at the bottom. Wide bias bands of the material set on to give the effect of an overskirt are seen

Sleeves are very close fitting and set in without any fullness, after the manner of a man's coat sleeve.

Richer Materials—No Trimmings

There is less trimming on the new tailored suits. The heavier, richer materials used in the making do not need it.

Every season the first thought of the woman who always looks well dressed, is her tailored suit.

For the woman who wants the material, workmanship and style of an expensive, custom-made suit at the price of an ordinary ready-made garment, we suggest a Bischof model.

For years Bischof has been bringing to American women the best of Paris' styles. Whether you live in one of the large fashion centers or in a small town, you can benefit by his world-wide knowledge of what the season's fashions will be.

We have a splendid assortment of the new models—exclusive coats and suits designed by Bischof for us. Come in and see them.

on some of the exclusive models. Skirts are from 2½ to 3 yards in width—anything narrower than this is very rare.

Jessie Eddie Pierce and Miss Lilla Alma Davis and Rufus H. Hicks and Mrs. Nancy Jones were granted license to marry this week.

We have it on pretty good authority that Judge H. F. Remley will probably make the race for county judge in the next county campaign.

The biggest engineering project ever undertaken in Graves county is now under way. It is being put through by the farmers of the Obion creek bottom near Pryorsburg, westward for a distance of about ten miles, and means the building of a drainage canal twenty or more feet wide and about ten miles long. The cost of the job will be in the neighborhood of \$20,000, and it is to be met by the land owners, through whose farms the ditch must pass.

The bottom seems to have dropped out of the cotton market, and while local buyers are paying all the market justifies, it is entirely too low. Farmers who can possibly do so, we believe, will do well to have their cotton baled and hold it a month or so. The crop is really short this year and the only excuse for the present low figure is that so much of the staple is being dumped on the market just at this time. Some of our planters, who desire to realize on their cotton at once, are shipping it to a Memphis concern and receiving an advance of 80 per cent of the present prices, and holding same until they see fit to sell. Whatever the means adopted in the matter of holding, it will in the end pay big dividends. There will be a re-action in price—and that before snow flies. If there ever has been a season when the Fulton county farmer should receive a fair price for cotton, it is this year. Don't blame the local gins because they cannot pay more. They are doing their best. But if you want a decent price for your cotton, think over this matter of holding before you decide to sell.

The Republican:

You're a Democrat, and with the situation now in view, What phase of politics is the most interesting to you? I'm for the County Unit, and you say you're for it too, But as I first heralded it, now the question's up to you.

The Democrat:

I'll admit that you proclaim the credit, And am in favor where credit is due In giving the doubtful discoverer all that he would eschew. But if you're for the County Unit, And I'm for the County Unit too. If the political proposition is 'lousy' Then the 'nits' are all on you.

The young ladies of East Hickman will give an ice cream supper tomorrow (Friday) evening at 7:30 for the benefit of East Hickman Chapel. The supper will be given in L. C. Lunsford's yard. All are cordially invited.

Wednesday evening, Mrs. W. O. McMillan entertained a few friends at an elegant four-course dinner in honor of her husband's birthday. The guests were Mr. and Mrs. John Meacham, Mr. and Mrs. Carl Schmidt, Miss Dora Cavitt and Mr. Hawkins.

RESOLUTIONS OF RESPECT.

Hickman, Ky., Sept. 23, 1911.

Whereas, on July 30th, 1911, God, in His infinite wisdom, saw proper to remove from our midst our esteemed friend and co-laborer, Richard T. Tyler, president of this Board,

Resolved, That in his death our Board has lost its most loyal and zealous member who was ever ready and willing to do anything for the betterment of our levee.

Resolved, That it is due mainly because of his untiring efforts that our levee was ever commenced and completed.

Resolved, That our community, in which he was born and lived, has lost a landmark, a friend to public enterprises, and an upright and worthy citizen in every respect.

Resolved, That these resolutions be spread upon the record book of our Board, and that a page be set apart therefor, and that they be published in the Hickman Courier.

FLOUNCED SKIRT.

Whether for plain material, for bordered goods or for flouncing this model is novel and attractive. The upper part of the skirt has four gores, which form points in front and back. Below them there is a gathered flounce. The skirt is slightly high waisted. Linen, foulard, brocade, gingham, cheviot, etc., are appropriate materials.

The pattern (5521) is cut in sizes 22 to 30 inches waist measure. Medium size requires 5 1/4 yards of 30 inch material, bordered, plain or flouncing.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

Saving Window Shades.

When you buy new window shades get them or have them made a foot longer than you really need. Then, when the hem wears out—as it will—cut off the torn part, reverse them, and they will look like new and wear twice as long as they otherwise would, as practically no wear except from rolling comes on the top and middle.

Help.

Julian Choate, W. C. Johnson, J. B. Wheeler and A. G. Kimbro motored to Mayfield this morning.

We are told several Hickman soft drink dispensers were indicted by the grand jury for selling "Temperine" and "Spray." Both are supposed to be non-intoxicating beverages, and to conform to the local option law. The manufacturers guarantee these drinks to contain less than 2 per cent of alcohol. If these drinks are intoxicating, it is right that their sale should be stopped. If stuff of this class must no longer be sold in Hickman, it should also be cut out in Fulton. Reports would lead the uninformed to believe that Fulton refreshment parlors are selling something a good deal stronger than either of these. Whatever disposition is made of these cases, it should at least be uniform throughout the county.

HELM & ELLISON

Miss Mabel Wilson, one of Hickman's popular bride-elects, was again complimented on last Friday evening when Misses Virginia Prather and Charlotte Hubbard, at the beautiful home of the latter, entertained most delightfully. The lower floor was beautifully decorated in green and gold—goldenrod and daisies being extensively used. Upon the arrival of the guests, which included most of the young society people of the city, and a few of the young married friends of the honoree, they were invited into the dining room where Mesdames Prather and Hubbard served orange punch. And after greeting the honoree the guests found their places at the card tables by means of attractive Christy place cards, where that game interesting to all alike both old and young—Hearts—was played. After all had tried their skill in this line, Misses Prather and Hubbard gave to each a card and pencil, with the request that they write a

letter of advice for the bride. Now there was much good advice and many good wishes, but let us hope that his little bride will not have to "stand" for all of it—and the fortunate groom not have to live up to all the things those many girls advised for and against. That all might know his or her fortune each guest then drew from a small golden basket a tiny heart, bearing a number, from which Mr. Clarence Reed told what was in store for each one present, out of which the company had much merriment. While the delicious refreshments of lemon cream and angel food cake, was being served, the colored string band, stationed in the yard began playing and singing. The majority of those present could not resist such splendid music so the rugs were turned back and dancing enjoyed until time to bid the charming hostesses good night.
